**MFJ-1806T Yaesu FT-817
Telescopic Antenna 6M
£43.00**

DESCRIPTION

MFJ-1806T Yaesu FT-817 Telescopic Antenna 6M. These special single banders were designed specifically for the extremely popular Yaesu FT-817 Multimode HF/VHF/UHF Portable Transceiver. These single band, base loaded telescopic whips are fitted with a BNC connector and handle 25 Watts. Each whip telescopes from around 26 cm to approximately 1.4 m. The short length when collapsed, makes them highly portable. Perfect for those hiking and camping trips with your Yaesu radio.

All antennas are covered by MFJ's famous No Matter What(TM) one year limited warranty. MFJ will repair or replace (at our option) your antenna no matter what for one full year.
