TCB-770 CB Radio Silver front £74.95

DESCRIPTION

The TCB-770 from TTI sets standards in Citizens Band [CB] radio design and performance. Whether you're using the TCB-770 in a truck, car or at home you'll appreciate the ease of operation and quality of communications. The combination of conventional black housing and modern blue illumination encompasses a wide range of advanced features. EASY & QUICK ACCESS. Simple and user friendly rotary controls allow Channel, Volume, Squelch, RF Gain and Mic Gain to be precisely adjusted. The Quick Channel Up/Down button offers convenience for quick access. To ease operation further, the TCB-7700 is equipped with '\\soft touch\\' buttons for AM/FM selection, an Emergency Channel selection, Channel Scan and Quick Up / Quick Down.

EXTRA FEATURES.

In addition to the standard power and antenna connections, the back panel also has interfaces for a signal level meter and an external loudspeaker.

MULTIPLE BANDS.

For International use, the TCB-770 is pre-programmed with a number of user selectable national channel sets*, along with the 40 CEPT channels. The user friendly menu system also allows a number of adjustments to suit individual user preferences - from channel scan pause to backlight level and more.

THE TCB-770 REALLY PUTS YOU IN CONTROL !
