Kenwood TH-D72E Dualband Handheld With GPS

£399.95

DESCRIPTION

8.33kHz Step can be selected with the TH-D72E for Air band receiving.

EchoLink® Memory

Up to 10 EchoLink® memory stations can be stored using callsigns (max. 8 alphanumeric characters). You can easily access an EchoLink node terminal without having to use a callsign.

Sky Command 2 System (*1)

The Sky Command 2 allows remote control of the TS-590S, Kenwood HF radio. You will use one TH-D72 as both a remote control and speaker microphone. The Sky Command System allows you, for example, to watch for and hunt DX while working around the house, or to operate the HF transceiver while relaxing in the living room or patio, instead of in the shack.

*1 Please follow your local ham radio legislation. Some regions may not be allowed to use this function.

The Kenwood TH-D72e has a built-in SiRF Star III GPS receiver and its antenna, so that you can enjoy various GPS functions with the radio stand-alone. You also can output its GPS data (NMEA-0183) to a PC through the USB port. The software for this, MCP-4A, is available as a free download from Kenwood's website.

GPS Logger function works with Internal GPS receiver. It records Latitude, Longitude, Altitude, Course, Speed, Time and Date. (Maximum of 5000 points). You can also output this data to a PC through the USB port.

Built in Mini USB Port

This Mini USB can be connected to a PC, to use MCP (Memory Control Program), GPS data or for Firmware upgrades.

Full Dot LCD & Smart menu

The radio has a full dot multi-functional LCD display (120x48 dots). It enables you to see the display easily, and you can operate the radio via its smart menu system which you can operate instinctively.

Dual Receive on Same Band (VxV, UxU, VxU, UxV)

In addition to simultaneous receive on both VHF and UHF bands, the TH-D72E can receive two frequencies on the same band (V x V or U x U).

Built-In TNC & APRS® Ready

Since the radio has a built-in 1200/9600 bps TNC, you can operate various APRS features such as location exchange and messaging without a PC.

Now many APRS features are available. The TH-D72E has over 60 menus for greater APRS enjoyment.
