Yaesu YA-30 Broadband Dipole Antenna

£229.96

DESCRIPTION

Yaesu YA-30 Broadband Dipole Antenna is designed to provide optimum performance over a wide frequency range. The usual requirements for multiple antennas or an antenna tuner between the transceiver and the antenna are eliminated by the unique broadband design. For best performance, the antenna should be installed with the radiating elements in a horizontal (flat top) configuration, and as high as possible.

Specifications YA-30 Broadband HF Antenna

Frequency Range 1.6 to 30 MHz

Power Rating SSB: 150W PEP

AM, FM, Data: 75 W (TX 5 minutes MAX: RX 25 Minutes)

Input Impedance 50

VSWR (typical) 2:1 from 1.6 to 18MHz, 3:1 above 18MHz

Length (m/ft) 25/83

Antenna Wire Material Stainless Steel (SUS304)

Coaxial feed line 30m (100ft), supplied with PL-259 plug
