- They are two separate programmers; but they are packaged together making it easier for you to get the programmer you need for the TS-590 version you have.
- This RT Systems software does both... Programming AND Control.
- Set up a channel and press CTRL / Left Mouse Click to instantly send the details to the radio. No waiting through a download.
- Spreadsheet layout with many point and click options.
- "Read" the current configuration from the radio for editing or start from scratch in a new file.
- Copy and paste of memory channel information between files.
- Column editing for changing several channels with minimal typing.
- An easy interface to ARRL Travel Plus, RFinder-Worldwide Repeater Directory, Radio Reference, or Repeater Book to get repeater information. (separate purchase or subscription may be required)
- Ability to copy and paste spreadsheet or website data.

- Much more than just memory channel programming with settings for other radio menu items.
- RT Systems Programming Software for Windows 7 (32 and 64 bit), Windows 8 and 8.1 (full version), or Windows 10
