SGC Delta Loop Antenna Kit

£69.95

DESCRIPTION

Base station, mobile or emergency antenna, directional 3dB to 12dB, for frequency range of 1.8 to 60 MHz and for use with any coupler (similar to SG-230, SG-231, SG-239 or SG-237). Antenna loop wire is 80 feet (perimeter) and can be configured arranged in any loop configuration. Supplied with 5 insulators, installation rope and instructions. Ideal for use in areas of high industrial noise and restricted apartment locations. Noise rejection is accomplished by groundless configuration of the Delta Loop Antenna.
